LOOKING YOUNGER

We all have our favourite and secret youth serum that gets us all those 'looking like a college girl' compliments. But how to choose the perfect one? Well, it should contain ingredients that firm the skin and tighten the fine lines. Equally important is using the serum right. Take two 'pumps' of the youth serum on your palm and rub both hands together to warm it up. Use one long upward motion on your face. This motion should work against the pull of gravity. You must use the anti-ageing serums on your neck as well.

CONTROL PIGMENTATION

Discolouration of skin can be tackled by skin-lightening products such as La Roche-Posay's Mela-D Pigment Control Concentrated Dark Spot Correcting Serum. It contains Kojic acid that erases dark patches. Studies have proven this serum corrects spots by 48 per cent within three months. The product significantly boosts skin radiance to look your best at the ceremonies.
